

‘Cloud operating model, not location,
provides foundation for COVID response.’

Powering Digital Public Services

May 14th 2020

Andrew Puddephatt
Director - Public Sector

Some observations from a supplier perspective...

- Necessity can drive rapid innovation and transformation
- Public Sector technology suppliers weren't ready for this either
- Single vendor approach can reduce agility
- Need for greater collaboration between suppliers

Cloud as an Operating Model, not a location
