

Collective learning from across the Public Sector to supercharge your RPA deployment

Delivered by

Charlotte Todd, NDL Business Manager

Are you ready for RPA?

Readiness

- Is RPA the right tool?
- Do you truly understand your challenges and processes with clear priorities?

ROI

- Have a strategic pipeline of processes to drive the ROI you need!
- What drivers kickstart your RPA journey?

Are you ready for RPA?

Have you identified how you will deliver RPA?

What are the considerations for accelerating deployment?

How are you planning for a cost effective roll out?

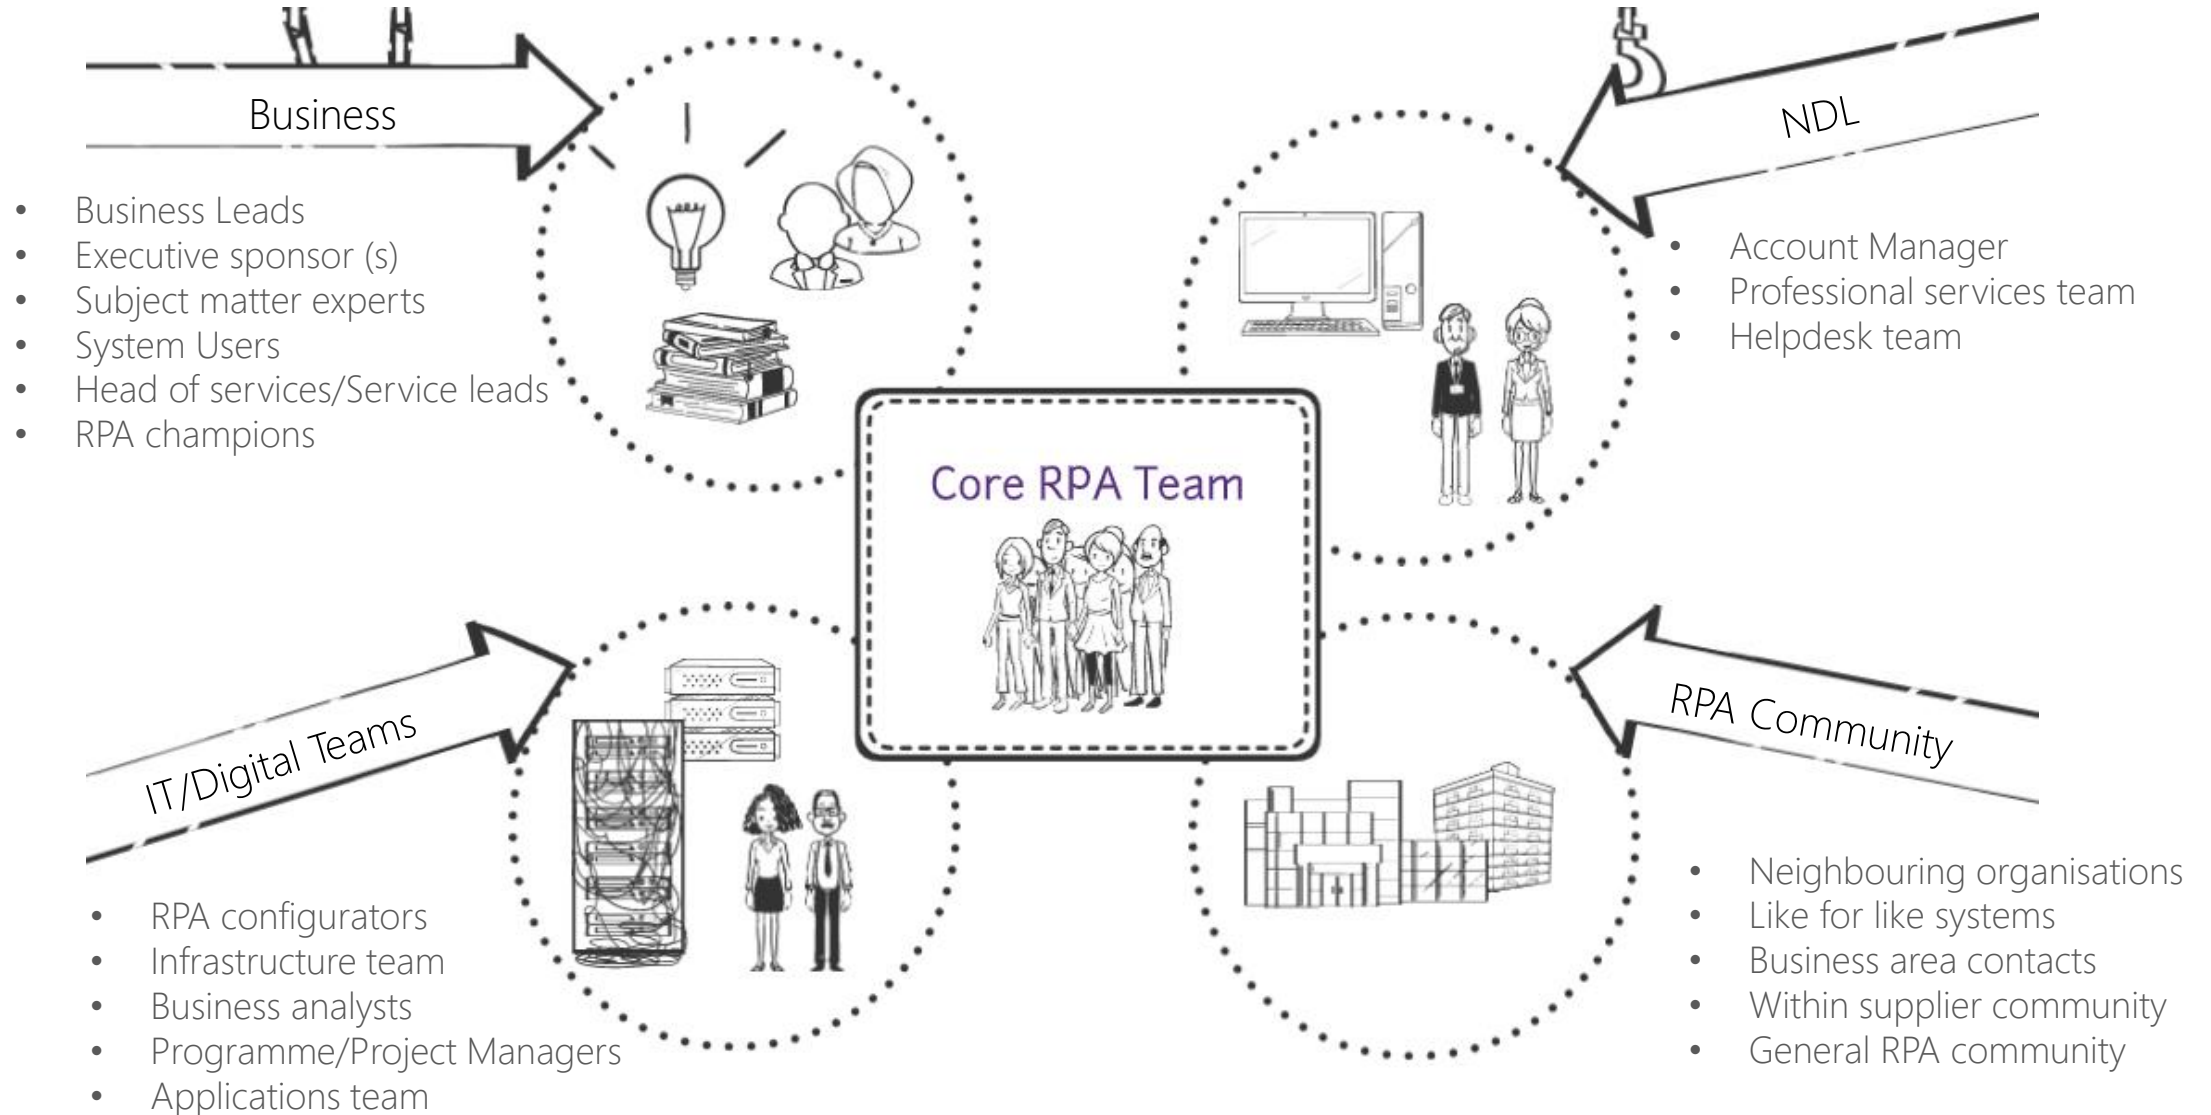

How are you going to minimise risk?

A hybrid approach aligned with business & organisational objectives is key

Keep people at the centre of your RPA journey

Foster a culture of collaboration

Keep people at the centre of your RPA journey

- Education, Education, Education
- Communicate appropriate messages to appropriate stakeholders - at the right time!
- Setting the right expectations

RPA should compliment your workforce

Accelerate through your organisation

- Deliver on short term objectives
- Showcase success internally and externally
- Embed, cross/upskilling and grow your team
- Refine your methodology and establish best practice

Accelerate through your organisation

Scalability as standard –
technology and licence

How can RPA compliment
other technologies? BI,
eForms, apps, workflow

Futureproof for Intelligent
Automation
