

# Local Government- key partners in place

Hannah Gill- Senior Adviser (Digital Transformation)

12 May 2022

[www.local.gov.uk](http://www.local.gov.uk)

# What do we do

Care and Health Improvement Programme (CHIP)- jointly run with the LGA and ADASS

- seek to share learning and support council through sector led improvement
- provide free direct support to councils through resources, tools, bespoke advice, masterclasses
- work with partners to influence longer-term planning, ensuring ASC needs are embedded within national policy, strategy and delivery

# Requirements for digital integration

- Person centred approach
- Comprehensive understanding of local community
- Equal partnerships and shared visions
- Investment across the system/place
- Shared information and data
- Governance and security
- Public understanding
- Skills and confidence
- Building on what works already

## Local government the key partner for place level

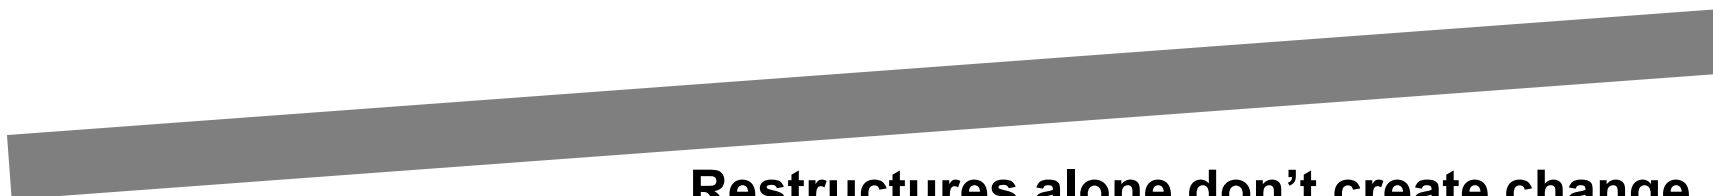

- Councils provide more than 800 services to residents
- Statutory duty to provide public health and social care for adults and children
- Commissioners of adult social care and key relationships with care providers
- Wealth of information about local areas and communities covering all wider determinants of health
- Cover housing, planning, licensing, community safety, schools, leisure, transport
- Existing place leaders
- Councillors are democratically elected and accountable to local communities

# Risks and opportunities

**Opportunity to bring together partners involved in health and care together- ICS/ICP/ICB**

**Cultural and policy shift digital within White Papers- Shared Care Records, Digitising Social Care, £150m investment, ASC reforms**

**Digital switchover**

**Restructures alone don't create change**

**Significant investment needed within underfunded sector**

**Huge change required over next few years- digital switchover, charging reforms**

**Workforce capacity**

**Cultural and systemic changes not just adding in digital**

# Examples...

## Care technology to facilitate data sharing with NHS

Durham,  
Lincolnshire and  
Hull councils

## Better Security, Better Care

Strengthening  
cyber and data  
security through  
DSPT

## Shared care records

Great North Care  
Record, Yorkshire  
& Humber Care  
Record

## Digitising Social Care

Digital care  
records  
interoperable with  
Shared care  
records

## Redesigning Digital services/systems

Leicestershire CC  
working with  
Hampshire CC; Suffolk  
CC

The whole will be greater than the sum of its parts...

# Support for councils

- Currently developing bespoke offer of support for next three years
- [Series of online recorded masterclasses and accompanying resources](#)
- [Resources and tools](#)
- [Case studies](#)
- Council community of practice- Digital Technology in Adult Social Care Knowledge Hub
